TO: Minerals File

FROM: Lynn Kunzler, Senior Reclamation Biologist 

RE: Site Inspection, Adkins Rock Products, Huff Creek Quarry, S/043/020, Summit County, Utah

Date of Inspection: June 4, 2003  
Time of Inspection: 9:00 a.m.  
Conditions: clear, warm  
Participants: Lynn Kunzler, DOGM

**Purpose of Inspection:** To document site conditions while in the area.

**Getting to the Site:**

This quarry is located approximately 2.5 miles up the Huff Creek Road, a side canyon about 10.3 miles east of Coalville, in the Chalk Creek Drainage.

**Observations:**

This site was not active during this inspection, and it appeared that there has been no activity for the past couple of years. Less than 1/4 of an acre has been disturbed and very little rock has been removed since the site was originally permitted. No problems with erosion or weed evasion were noted. The site appeared stable.

The GPS was used to determine the UTM coordinates for this site as North 4537722, East 481416.

**Conclusions and Recommendations:**

If this site remains inactive for the next couple of years, it is suggested that the Division request final reclamation and closing of this file.
